

**ROMANIAN-AMERICAN
UNIVERSITY**

School of Domestic and International Business, Banking and Finance

Bachelor in International Business

TAUGHT IN ENGLISH

The primary task undertaken by the International Business Bachelor Program is to prepare students so that they meet the challenges posed by their employment in companies that are compelled to carry out activities in a business environment increasingly internationalized, technological and competitive, by providing training and a relevant experience in the field and which are to be recognized both nationally and internationally. Therefore, the *International Business* bachelor program aims to address the curricula not only in theoretical terms, but also to create multiple connections between practice and research.

Graduates of the International Business Bachelor Program (taught in Romanian or English) from the School of Domestic and International Business, Banking and Finance will be able to provide assistance in the international business field for public and private organizations, professional associations, chambers of commerce, clusters etc. They will be capable to prepare and assist the execution of international contracts and to identify the appropriate steps, formalities and techniques used in contracting and execution of international business, according with domestic, European and international trade policies and regulations. Students will have, as well, the opportunity to study four foreign languages (English, French, Spanish and German).

All faculty members of our University meet the legal requirements, in that all professors, associate professors and lecturers have a PhD title and the teaching assistants and junior assistants have master studies and certified teaching training, all of them being PhD students. Most of our faculty has studied abroad, some of them in the US and during each semester you will have American Professors teaching you 1-2 courses.

Extracurricular courses are taught by American and International professors (at no cost) for our students several times each semester, a list can be consulted at the following address: <http://guestcourses.rau.ro/>

The School of Domestic and International Business, Banking and Finance built a solid staff policy, reflected by the large number of specialists involved directly in the economic issues and international affairs. Among them we can mention: professor Gh. Prisăcaru, PhD., ex-Minister of European Integration, professor Florin Bonciu, PhD., former President of the Romanian Development Agency, professor Virginia Campeanu, PhD., deputy director of Institute of World Economy of Romanian Academy, professor Theodor Purcărea, PhD., former President of the Competition Council.

Supplying teaching materials for all subjects has been a constant concern of the faculty board and specialty departments that analyze annually the need for textbooks and their availability in the library and the bookstore of the university. Hence, all subjects in the curriculum are provided with corresponding up-to-date teaching materials, elaborated either by the course titular professors (and published, under the aegis of the university, by CNCSIS-quoted publishing houses) or by outstanding experts in the field - reference works used in the whole academic system.

Apart from textbooks and other materials, the University library also provides other books, treaties, magazines, received from American universities, as well as other materials elaborated by professors not related to the faculty.

For the evaluation of the students, the *School of Domestic and International Business, Banking and Finance* applies the methodology of the *Romanian-American University*, included in the Regulations on the professional activity of students and it relies on two criteria: attendance and performance.

Each academic year, the curriculum provides minimum *60 transferable study credits*, namely 30 credits per semester. The curricula provide for *6 semesters*. The academic year is divided into *2 semesters, each one having typically 14 weeks (the 3rd semester has 11 weeks, 3 being allocated to the internship, and the 6th semester has 12 weeks, 2 being allocated for completion of the graduation paper)*. Thus, in the first three semesters, regardless of the curriculum, students study a set of subjects that are present in the basic training of an economist:

- Microeconomics
- Macroeconomics
- Econometrics
- Communication and Public Relations
- Fundamentals of Marketing
- English and Communication Techniques
- Public Finance and Corporate Finances
- Fundamentals of Accounting
- Management
- Statistics
- Mathematics for economics

The International Business Bachelor Program includes the following specialized subject matters:

- International Business Management
- International Trade
- European Integration Economics
- Trade Policies
- EU Common Policies
- International Financing And Payments Technique
- International Investments
- International transports
- International Commercial Law
- International Business Communication In English

The students in the second year undertake different internships of *3 weeks* (at the end of the second semester) in specialized organizations or in different companies.

According to their content, during the first and second years of study, basic subjects and the economic training prevail and starting with the third year of study, specialized subjects gain more room, in line with legal requirements.

The *curriculum* includes, *compulsory, optional* (starting with the second year of study) and *facultative disciplines, split in basic subjects, specialized subjects, field subjects and supplementary subjects*. Optional subjects are grouped together in pathways providing the students with additional training to the study program they select in the first year. Students choose, at the end of their first year, the route of optional subjects to study until the end of the bachelor program.

Curriculum

1st year, 1st semester

Compulsory Subjects
